Your demanding-week plan

A practical plan for the week you actually have.

Week of _____

1 What will this week ask of you?

Note the fixed responsibilities you need to plan around.

WORK	TRAVEL	FAMILY / OTHER

2 Choose one personal habit priority

- ☐ Sleep / recovery
- ☐ Food routine
- ☐ Movement / strength
- ☐ Other: _____

3 Make the next action specific

I will...

When and where will I do it?

On a difficult day, the smaller version is...

4 What will make it easier?

What to get ready, arrange, or remove before the week begins.

Keep this somewhere useful. Review it at the end of the week, then carry one adjustment into the next plan.

For personal planning and coaching conversations. Medical questions belong with qualified clinicians.

Review, then adjust

Use what happened to make the next week more workable.

ILLUSTRATIVE EXAMPLE - A TRAVEL WEEK

The week	Two travel days and a late return. Priority: food routine.
Action	Choose a familiar lunch option before each travel day.
When	While checking the itinerary.
Fallback	Keep a simple option that fits my own needs within reach.
Get ready	Check the day's schedule and nearby options.

A planning example, not a client account or result.

5 A brief review of your week

What did I manage?

What felt useful?

What got in the way?

What will I adjust?

6 For a coaching conversation

Where does my plan usually break down?

What support would help me take the next step?

What should I keep, simplify, or try differently?

An optional next step

If you would like to discuss whether coaching fits you, share the part of your routine you would like help with.
